RE: PVB Strike Force Statistics	

They aren't under my jurisdiction. They are under Commissioner Derenda's.

By copy of this e-mail let's see what he says.

Dan is it alright to shoot footage on BPD 422 tow trucks for CitiStat?

Great! Can we get some video of these guys?

Yes and yes.

They work 24/7. Therefore they have to cover 168 hours/week. With vacation/sick/pl, etc. You need all 5.

So basically, one driver, one truck per shift.

Can we talk about this at Citistat? Do we have enough city tow trucks for these new drivers?

Not at this time. We are writing a new RFP because of recent changes.

The recent changes have been the hiring of three new City Tow truck drivers. With a full staff of City towers there is a significant decrease in the amount of private tows that we will need.

We are assessing this new data so when we put out an RFP we can be accurate in how much business they can expect.

How is the towing going? Any more companies being approved in the City?

Martha- Your final question re. any new initiatives:

Please see above. The mayor asked us to keep separate statistics for all Strike Force tows.

Out of the 1,120 vehicles towed, 908 were towed by privates at \$50 each. Therefore, \$45,400 in expenses.

The revenue from released/auctioned is \$192,354. The unreleased will be auctioned. Using an average of \$600 each that will generate another \$13,200 in revenue.

To conclude:

Revenue; \$205,554

Expenses- \$45,400

Net= \$160,154

Kevin,

Here' s the updated Strike Force report you requested.

Ken
